## **The Second Realm** Michael Chatfield

When Erik and Rugrat entered the ten realms they didn't know what was going on. They only knew that they had contracted the two week curse.

When entering the second realm they came to understand their character sheets, and part of the system that is called the ten realms. A place that the strong make the rules and the weak cling to them for protection and hope that they might be left in peace.

They passed through the trials of the Beast Mountain Dungeon, taking control of it and becoming the leader of nearly two hundred people.

Now in command of the Alva Dungeon and looking to forge a new future, they need more power, mana stones, dungeon cores, monster cores, if not then the Dungeon will stop functioning and they will need to relocate once again.

As they ascend to the second realm, Erik and Rugrat need to grow their skills, gain information and find a dungeon. It's hardly ever that easy.

### **Mini-Review: LitRPG**

3.5 Stars for Narration by Todd Menesses

4 Stars for Main Characters & Story Concepts

1.5 Stars for Uneven Pacing & Writing

I should have written the review for the first book but my experience for the two books are about the same. The narrator is good but he doesn't have a wide range for character voices and that doesn't work well with a story that has a lot of side characters. The main characters are solid. They are fully developed characters that come across well. In fact, I would say that the details for the plot, setting, etc are very well planned but the execution is a bit off. The writing doesn't have an even consistency from start to finish. Some parts are well written and others are very rough. Word choices make scenes that should have been full of energy come across as flat & boring. The series comes across as a work in progress due to chunky transitions between a well delivered scene to a rough one. I wouldn't be able to read the series in print because errors would be more obvious. It's easier to take in & enjoy in audio format.

### **Book two**

Mistakes: This is by far such sub par work from Michael Chatfield, that I'm just stunned that it was even published.

You have missing letters, numbers inserted into words, messed up punctuation, misspelled words, miss used words, missing sentences, missing paragraphs, and more. This is nothing more than a bad rough draft that was never cleaned up and edited.

Plot: you have three main plot lines that are jumbled, choppy, and not well fleshed out.

Characters: I still like them but they can't carry a book this badly put together.

I feel ripped off by the author that he published something so shoddy and I paid for it because his first series was so well done that I thought this series would have the same quality.

Fooled me. I'll read book three just because I bought all the books in this series at one time.

However if book three shows the same lack of care and quality I will drop this author for good. My hard earned money should go to authors that take pride in their work and put out a worthwhile product.

1/10

## **Peter L says**

I really wanted this book to be great and build the characters up whilst continuing to build the world and expand everything from the first book but it was just, well, frustrating in every way. I feel a little cheated (having actually bought the series) that this book is so badly written and poor. Spelling mistakes are unforgivable in this day and age, even sentences that are clearly just wrong can be caught by a simple word processor! It was driving me nuts that on occasion characters appeared out of thin air, references to things were mixed up, there is even one fight scene where he suddenly hits someone not taking part in the fight! amazing. This author should be ashamed of the quality of this book, it is without doubt the worst quality I've ever read. The teenager like swearing dialog was horrible to read and unbelievably 1 dimensional.

I can't think of anything all that positive to say other than this made me think "if this guy can get away with this, and I paid good money for it, and read it all, and will read the 3rd book I expect, then why the hell don't

I just write a book, it'd be better than this!". So thank you to this book for giving me confidence in myself, I'm going to get my tesla ordered now with the future money I will make from the book I plan to write which will be better than this one if only for the reason I'll use a spell checker and re-read it to myself at least once!

I've given it 2 stars as to be fair, I did read it all and there are a few books I've not managed to get through which are more deserving of a 1 star. Really hoping the author had a new baby during this book and was writing it on 2 hours sleep a night, yes, that's what I'm going to tell myself, congrats on the baby.
